VMware 5.5 - How to Check ESXi Release Notes, Review 1.Q: Why use 'on the stage' in place of 'on stage' Here are the sentences from two books : (from The Red Lamp: A novella) The cow had been dispatched with its hide on the stage. (from Jane Austen's 'Mansfield Park') She did not seem to observe that she had been mentioned, and her aunt was on the stage. Why is it 'on the stage' instead of 'on stage'? A: There is no on the stage. When a cow has its hide on the stage, it is in the process of being skinned. On the stage means 'with the intent of being skinned'. A: For a cow, to have its hide on the stage does not mean it is already skinned. It is used to mean that the hide is being used to line a roof, for example. A: To put it in another way, let's rephrase the sentences as follows: The cow was dispatched with its hide on the stage. She was on the stage, and not apparently observing that she had been mentioned. (In the second one, the on is definitely on the stage, not on a stage in general.) If you think about what the expression means, you can see that the 'hide' is not necessarily being used as a stage, but is instead being used to line an area in general.
